Aligning to Reporting Frameworks

At Tiffany & Co., we are committed to regular and transparent reporting on sustainability progress, which allows our stakeholders to access information about our performance. We report in alignment to three international frameworks that have standardized formats that help companies report on their progress and opportunities. Since their launch in 2015, we have reported on our contributions to the 17 United Nations Global Goals (also known as the Sustainable Development Goals). For 11 years, since our first year of reporting, Tiffany & Co. has reported in accordance with the Global Reporting Initiative (GRI) and published its Communication on Progress for the United Nations Global Compact (UNGC).

For more information on our sustainability commitments and progress over the last 20 years, visit Tiffany.com/Sustainability.

How We Support the UN Sustainable Development Goals

Since 2017, Tiffany & Co. has been reporting on its contributions to many of the 17 United Nations Global Goals, also referred to as the Sustainable Development Goals (SDGs).

Our business aligns most closely with the six goals described on the following pages. We hope to drive progress on this shared global agenda through our work and collaboration from within our industry, and with other businesses, civil society and government.
Gender Equality & Reduced Inequalities

Diversity of Our Workforce
We work to promote a culture of excellence and diversity in the workplace and are proud that 62%* of manager and above roles are held by women.

Senior Management Gender Ratio
In 2020, 43% of Tiffany & Co. Senior Management were women.

Women’s Empowerment
In 2017, we affirmed our commitment to women’s rights, human rights, and diversity and inclusion by signing the United Nations Women’s Empowerment Principles.

Living Wage
For more than 10 years, Tiffany & Co. has had a living wage program, endeavoring to pay a living wage to employees at our manufacturing facilities in developing countries.

Supporting Parents & Caregivers
In 2018, we expanded our global leave policy designed to give employees greater flexibility through enhanced parental leave and paid time off to care for ill family members. This policy supports gender equality at home and promotes work-life balance. In response to the COVID-19 pandemic, in 2020 Tiffany implemented a global emergency leave program and expanded eligibility for our global flexible working policy, including new guidance on remote work.

Unconscious Bias Training
Tiffany continues to embed diversity and inclusion into its global learning development offerings. We launched our Unconscious Bias Training globally for all Tiffany employees in 2019 and have expanded our offerings, rolling out an unconscious bias awareness e-learning course in 2020 as part of new hire orientation, as well as a virtually facilitated program focused on how to mitigate unconscious bias. Beginning in 2021, this session will be offered in multiple languages.

Training & Development
Our manufacturing facilities in developing countries employ a predominantly female workforce, and we provide jobs with the opportunity to earn a living wage—as well as opportunities for training and development—to all regular, full-time diamond polishers and jewelry manufacturers.

Local Hiring
We are dedicated to improving local economies everywhere we work. As of 2020, we hired 99%* of our international manufacturing workforce directly from the communities around our operations.

Economic Beneficiation
In Botswana, 100% of the polishers at our facility were hired from the local community and we provided approximately USD $44 million* in economic benefits to Botswana’s economy.

Employee Resource Groups
Today, we have four Employee Resource Groups—Multicultural, Women, LGBTQIA+ and Life Stages—across 12 global chapters. These groups aim to advance our goals around creating positive community impact, building an inclusive culture, expanding our learning and development, and diversifying our talent sourcing.

FY2020 Alignment to Sustainability Reporting Frameworks
Integrity
Our vertical integration model for sourcing materials and crafting jewelry helps us incorporate environmental and social integrity across the supply chain.

Social & Environmental Standards
We strive to maintain high social and environmental standards in our operations and supply chain to complement the exceptional quality and craftsmanship of our products.

Transparency in Diamond Sourcing
We are proud to share the journey of a Tiffany diamond with our clients. In 2019, we launched the Diamond Source Initiative, pledging to provide provenance information—region or countries of origin—for every newly sourced, individually registered diamond (of .18 carats and larger) that we set.

In 2020, we expanded upon the initiative with the launch of the Diamond Craft Journey, becoming the first global luxury jeweler to disclose the country where these stones are crafted. The journey outlines several steps, including cutting, polishing, grading and setting—a pioneering achievement in diamond traceability and transparency.

IRMA Standard for Responsible Mining
Tiffany & Co. is proud to be a founding member of the Initiative for Responsible Mining Assurance and continues to actively participate in the organization’s governance and advancement. After a decade of multi-stakeholder collaboration, IRMA released a pioneering Standard for Responsible Mining, a robust, practicable and comprehensive set of requirements for responsible mining, incorporating environmental, social, ethical and transparency considerations.

In 2020, IRMA began auditing mines against the IRMA Standard. To support the uptake of this Standard, we are asking our suppliers to begin the process towards being independently audited through IRMA and/or to begin using IRMA-assessed mines as they are available.

Preserving Resources & Circularity
We carefully source our products and materials—from precious metals and diamonds to paper and packaging—in an effort to uphold principles of social and environmental responsibility and preserve nature’s resources. To that aim, our efforts include engaging in circularity initiatives, which helps reduce waste, save precious raw materials and contribute to the regeneration of biodiversity.

Advocacy
We use our voice in an effort to improve standards for the mining industry and advocate for the protection of human rights and Earth’s precious natural resources.
Climate Action

Net-zero Emissions
We are committed to achieving net-zero greenhouse gas emissions.

Energy Efficiency
By 2020, we aimed to reduce electricity intensity across our retail stores by square footage by 15% (compared to 2013 levels). Tiffany works to reduce energy use by improving our operational efficiency, including following sustainable building design principles.

To date, we have over 20 retail stores, offices and manufacturing locations certified LEED Silver, Gold or Platinum. This equals approximately 10% of our total square footage.

LEED (Leadership in Energy and Environmental Design) building certification is the leading international program for sustainable building design and assesses a range of factors, including energy efficiency, water use, air quality and building materials.

Advocacy
We are active in the movement to combat climate change and use our voice to advocate for responsible climate policy and the importance of protecting biodiversity.

Renewable Electricity
We aim to ultimately use 100% renewable energy globally. In 2020, 85%* of our global electricity came from clean, renewable sources.

Carbon Offsets
For the past four years, we invested in carbon offsets from a locally run forest conservation project that also delivers social and economic benefits to communities in Kenya’s Chyulu Hills.

Life Below Water & Life on Land

Marine Conservation
Tiffany & Co. stopped using coral over a decade ago, and The Tiffany & Co. Foundation has awarded over USD $26 million in grants for coral and marine conservation, through Calendar Year 2020.

Creating Protected Areas
The Foundation supports the creation and expansion of marine protected areas around the world through organizations such as Oceana, Oceans 5, the Wildlife Conservation Society and Conservation International.

Research & Innovation
The Foundation has supported innovative research and restoration techniques to increase the long-term resilience of coral in places from the Caribbean to the Great Barrier Reef.

Land Preservation
We consider it our responsibility to help preserve the natural beauty that inspires so many of our jewelry designs. We advocate for the protection of special places from mining. For example, in 2019, our Chief Sustainability Officer reiterated our opposition to the proposed Pebble Mine in Bristol Bay, Alaska in testimony before the U.S. Congress. She also outlined why Tiffany & Co. believes it is important that rigorous environmental review of any mining projects occur, with proper consultation of local stakeholders, especially with respect to projects that threaten to disrupt pristine landscapes such as Bristol Bay.

Sourcing Raw Materials
We are thoughtful about which raw materials we use—and which we don’t—and we carefully consider how these materials are procured and crafted.

Restoring Habitats with Salmon Gold
Tiffany & Co. and Apple provided seed funding for the Salmon Gold pilot, an innovative model that produces gold using responsible mining techniques and simultaneously restores critical habitats for salmon and other species at placer mine sites in Alaska in 2018. The program has since expanded to additional sites in Alaska and Canada, and we have increased our purchases from this program year-on-year.

Protecting Wildlife
We advocate against the use of endangered species in jewelry and support conservation efforts to protect wildlife. To date, in partnership with our clients, we have raised more than USD $10 million for the Wildlife Conservation Network through the Tiffany Save the Wild collection to help protect elephants, rhinos and lions.

Reversing Deforestation
Our commitment to responsible sourcing extends to our catalogues and our iconic Tiffany Blue Boxes and blue bags that carry our clients’ treasures, in an effort to do our part in reversing global forest loss. Beginning in 2004, Tiffany started requesting third-party certifications for our blue bags, with a preference for Forest Stewardship Council® (FSC®) certification—the premier standard in responsible forest management. Our iconic Blue Boxes and blue bags are sustainably sourced and include the use of FSC®-certified and recycled materials.
United Nations Global Compact

Communication on Progress 2020

In 2011, Tiffany & Co. joined the United Nations Global Compact (UNGC), one of the world’s largest corporate sustainability initiatives for businesses committed to aligning their strategies and operations with 10 principles in the areas of human rights, labor standards, environment and anti-corruption. The table on the following page shows how we are communicating on progress for the Ten Principles.
Principle | Global Compact Principles | Communication on Progress
--- | --- | ---
**HUMAN RIGHTS**
1. Businesses should support and respect the protection of internationally proclaimed human rights.
   Tiffany & Co. adheres to key policies and procedures in order to help safeguard human rights within and throughout our supply chain. For information on our policies, please see the GRI Content Index and page 4 of this document for links to our key policies. Within the Company, we prioritize diversity and inclusion by welcoming the unique identities, expressions, ideas, abilities and cultures from our employees around the world. The Company’s Social & Environmental Accountability Program evaluates suppliers to better protect human rights in our supply chain. In conjunction with our 2025 Sustainability Goals, the Company is in the process of developing its Tiffany & Co. Sustainable Material Guidance—further communicating our sourcing expectations, including social and environmental considerations (e.g., human rights and biodiversity), for all key materials across products, packaging and store interiors. Beyond these spheres of influence, Tiffany & Co. is committed to protecting human rights throughout the industry and seeks to advance high standards in responsible mining and advocating for the protection of human rights. For more information, please see Tiffany.com/Sustainability, the “Tiffany & Co. Supplier Code of Conduct,” “Tiffany & Co. Supplier Code of Conduct Guidance,” “Tiffany & Co. 2025 Sustainability Goals” and “Tiffany & Co. Responsible Purchasing Policy.”

2. Businesses should make sure they are not complicit in human rights abuses.
   Businesses should support a precautionary approach to environmental challenges.
   Tiffany & Co. draws on the natural world for both design inspiration and the precious materials used in our products. At the Company’s core is a commitment to preserve, protect and responsibly manage the environment on which we rely for our long-term success. In line with the Company’s 2025 Sustainability Goals, we have launched a series of environmental commitments in the areas of net-zero GHG emissions, sustainable buildings, and packaging and conservation. These commitments go beyond our core operations in an effort to better understand and mitigate environmental challenges throughout our supply chain.

**LABOR STANDARDS**
3. Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining.
   Tiffany & Co. recognizes and respects the importance of labor standards to protect workers worldwide. Tiffany & Co. provides guidance to employees and the Human Resources function of its organization to enhance compliance with applicable employment laws and regulations to foster a positive and ethical work environment. For more information, please see the GRI Content Index, Tiffany.com/Sustainability and page 4 of this document for links to our key policies. Through its Social & Environmental Accountability Program, Tiffany & Co. upholds standards in social and environmental responsibility by working with a key subset of suppliers to help improve their human rights, labor and environmental performance. Suppliers are expected to adhere to the Tiffany & Co. Supplier Code of Conduct, which addresses freedom of association and collective bargaining, forced labor, child labor, harassment or abuse, disciplinary practices and discrimination, among other practices. The Company’s 2025 Sustainability Goals reinforce these expectations and target improving the performance of all key Company suppliers by 2025, including labor standard adherence. Tiffany & Co.’s forthcoming Sustainable Material Guidance will include our sourcing expectations across products, packaging and store interiors, taking labor standards into account for all key materials. Additionally, Tiffany & Co. supports the strengthening of industry-wide labor standards beyond our immediate operations. For more information, please see Tiffany.com/Sustainability, the “Tiffany & Co. Supplier Code of Conduct,” “Tiffany & Co. Supplier Code of Conduct Guidance,” “Tiffany & Co. 2025 Sustainability Goals” and “Tiffany & Co. Responsible Purchasing Policy.”

4. Businesses should uphold the elimination of all forms of forced and compulsory labor.
   Businesses should support the elimination of all forms of forced and compulsory labor. The Tiffany & Co. Business Conduct Policy sets forth expectations for Tiffany & Co. employees, including compliance with relevant laws and regulations. This policy prohibits payment of bribes and the acceptance of inappropriate payments or gifts. All employees are required to review the policy upon hire and thereafter on an annual basis to make sure that they understand these standards. Certain employees in all regions, including regional management, are required to undergo Anti-Money Laundering training. In addition, employees whose responsibilities may involve interactions with government officials are required to annually undergo Anti-Bribery & Corruption training. Within our supply chain, the Tiffany & Co. Supplier Code of Conduct outlines expectations for ethical conduct and legal compliance. The Company’s 2025 Sustainability Goals reinforce these expectations and target improving supplier performance of all key suppliers by 2025. For more information, please see Tiffany.com/Sustainability, the GRI Content Index, the “Tiffany & Co. Supplier Code of Conduct,” “Tiffany & Co. Supplier Code of Conduct Guidance,” “Tiffany & Co. Responsible Purchasing Policy” and “Tiffany & Co. Business Conduct Policy.”

5. Businesses should uphold the effective abolition of child labor.
   Businesses should support the effective abolition of child labor.

6. Businesses should uphold the elimination of discrimination in respect of employment and occupation.
   Businesses should undertake initiatives to promote greater environmental responsibility.
   Businesses should encourage the development and diffusion of environmentally friendly technologies.

**ENVIRONMENT**
7. Businesses should support a precautionary approach to environmental challenges.
   Businesses should support a precautionary approach to environmental challenges.

8. Businesses should support the elimination of all forms of forced and compulsory labor.
   Businesses should encourage the development and diffusion of environmentally friendly technologies.

9. Businesses should support sustainable consumption and production.
   Businesses should encourage the development and diffusion of environmentally friendly technologies.

10. Businesses should support sustainable consumption and production.
    Businesses should work against corruption in all its forms, including extortion and bribery.

Global Reporting Initiative (GRI) Content Index: Introduction

Tiffany & Co. reports on the sustainability aspects of our business that we deem most material to our business and stakeholders.

Unless otherwise specified, the sustainability reporting and disclosure set forth on Tiffany.com/Sustainability covers Tiffany & Co. and its subsidiary operations; figures are rounded to the nearest whole number; and data is reported based on the Fiscal Year (February 1, 2020–January 31, 2021). Data was collected from all Tiffany & Co. global locations and activities, including retail stores, offices, manufacturing, distribution and warehouse locations. Data used in the calculation of metrics is obtained from direct measurements, third-party documentation and contractual terms or industry- and geographic-specific estimates. Full methodology and definition guidance are maintained in metric controls documents, inventory management protocols and our sustainability data management system.

A summary of the data and information collected, including definitions, scope, units of measure, reporting period, calculation methodology and select information sources, can be found in the “FY2020 Sustainability Performance and Metrics Document.” In accordance with the Global Reporting Initiative (GRI) Standards, we describe our approach for identifying and responding to our most material social and environmental issues identified throughout Tiffany.com/Sustainability.

For the purpose of our sustainability reporting and disclosures throughout Tiffany.com/Sustainability, “materiality” is defined as that which is most important to the Company and reflects what we believe to be our most significant environmental and social impacts, as well as that which we believe most substantively influences the assessments and decisions of our stakeholders.

Following our most recent sustainability materiality analysis, the results indicated the following topics as focus areas:

• Biodiversity & Ecosystems
• Diversity & Inclusion
• Human Rights & Labor Practices in Our Supply Chain
• Traceability
• Transparency

Other Key Topics Include:

• Energy & Climate
• Environmental Topics in Our Supply Chain (including land management, waste & recycling, and water stewardship)
• Living Wage & Local Hiring in Our Own Operations
• Philanthropy
• Recruitment, Development & Retention
Impact Boundaries

All impact boundaries are global and apply to Tiffany & Co. and its subsidiaries unless otherwise stated throughout Tiffany.com/Sustainability. In an effort to present a more holistic view of our potential impacts, we include certain supply chain and downstream value chain information throughout the GRI Content Index, specifying in each such case that which applies to our own operations, and that which applies to external third parties. Please see additional information on the Company’s economic, environmental and social impact boundaries to the right. Specific information about the boundaries of key metrics can be found in the “FY2020 Sustainability Performance and Metrics Document.”

Economic Impact Boundaries
Our economic impacts can be measured across Tiffany & Co. global operations, including all of our subsidiaries and the communities in which we work. Indirectly, we have impacts in our supply chain, including impacts through our direct suppliers and original raw material sources around the world.

Environmental Impact Boundaries
Our environmental impacts can be measured across all Tiffany & Co. global facilities and the facilities operated by our subsidiaries. Indirectly, we have impacts in our supply chain, including impacts through our direct suppliers and original raw material sources around the world. We focus on the traceability of raw materials used in our products in order to help evaluate our environmental impacts throughout the supply chain.

Social Impact Boundaries
Our social impacts can be measured internally across Tiffany & Co. global operations, including all subsidiaries, as well as externally in the communities in which we operate. Tiffany & Co. employees include all regular, seasonal, temporary and part-time employees, except where otherwise stated. Indirectly, we have impacts in our supply chain, including impacts through our direct suppliers and original raw material sources around the world. We focus on the traceability of raw materials used in our products in order to help ensure they are sourced ethically throughout our supply chain.
Tiffany & Co. reporting and disclosures have been prepared in accordance with the GRI Standards: Core option.

GRI 204: PROCUREMENT PRACTICES

204 Management approach
Tiffany is committed to responsibly sourcing all materials used in its products, from the paper used in our iconic Blue Boxes and blue bags to the gemstones used in our jewelry. We believe that fine craftsmanship means embedding social and environmental integrity at every step—from sourcing to processing to crafting our jewelry. Our vertical integration model helps us uphold our standards of craftsmanship, safe and healthy working environments, community economic development and supply chain traceability. We are committed to excellence as a company and hold our suppliers to the same high standards to which we hold our own business. The Tiffany & Co. Supplier Code of Conduct has helped Tiffany uphold our basic expectations across our supplier base. Our Social & Environmental Accountability Program enables us to uphold our standards in social and environmental responsibility by working with a key subset of our suppliers to help them improve their human rights, labor and environmental performance. This key subset includes suppliers that provide us with our finished goods, components, leather goods, polished diamonds, colored gemstones and packaging materials, as well as service providers that repair and perform new sale alterations on Tiffany & Co. merchandise.

204-1 Proportion of spending on local suppliers
For select information on locations of suppliers, please see page 12 of “FY2020 Sustainability Performance and Metrics Document.”

GRI 304: BIODIVERSITY

304 Management approach

Tiffany & Co. has always had a powerful relationship with nature, which both inspires our designs and serves as the source of the precious materials that give life and form to our iconic collections. Our approach to biodiversity spans product design and development, sourcing practices, supplier relationships and our advocacy efforts.

We are intentional in sourcing our materials (as well as those raw materials we choose not to source), including aligning our expectations to third-party standards and industry best practices through Tiffany & Co’s Sustainable Material Guidance to mitigate negative impacts like deforestation. For more information, please see the “Tiffany & Co. Supplier Code of Conduct” and “Tiffany & Co. Supplier Code of Conduct Guidance.”

Through our Social & Environmental Accountability Program, Tiffany & Co. upholds standards in social and environmental responsibility by working with a key subset of suppliers to help them improve their human rights, labor and environmental performance, which includes biodiversity considerations. For more information on how we work with our suppliers in these areas, please see the “Tiffany & Co. Supplier Code of Conduct” and “Tiffany & Co. Supplier Code of Conduct Guidance.”

The Tiffany & Co. Foundation’s grantmaking is strategically aligned to complement Tiffany & Co.’s sustainability efforts. With a mission to preserve the world’s most treasured seascapes and landscapes, the Foundation’s grantmaking focuses on two main program areas: Responsible Mining and Coral Conservation. Since 2000, the Foundation has awarded over USD $90 million in grants to nonprofit organizations working around the world to advance issues on a local and global scale. For more information, see The Tiffany & Co. Foundation website, and Our Philanthropy Approach on Tiffany.com/Sustainability.

Tiffany’s iconic packaging segment of Planet, wood and paper sourcing and circular economy opportunities segment of environmental impact; restoring habitats in Alaska segment of Taking Care of the Planet.

Nature-based solutions: As part of our climate strategy, we purchase our carbon offsets through the Chyulu hills conservation trust project, which in part conserves critical habitats for elephants and lions. For more information, please see the carbon offsets segment of achieving net-zero emissions on Tiffany.com/Sustainability.

Industry standards including biodiversity: Precious metals and advancing responsible mining segments of product, responsible mining principles and the initiative for responsible mining assurance and the Kimberley process segments of our responsible mining philosophy on Tiffany.com/Sustainability.

Advocacy and philanthropy: Since 2017, we have raised over $10 million from Tiffany save the wild collection to help protect elephants, rhinos and lions. 100% of profits benefit the wildlife conservation network. For more information, see the wild segment of philanthropy. A commitment to environmental philanthropy segment of Planet, Tiffany save the wild segment of Taking Care of the Planet and our stance on coral and ivory segment of responsibly sourced materials.

Using our voice: As a company, we feel it is our responsibility to use the power of the Tiffany brand to lead powerful conversations about climate change and biodiversity. We speak out and raise awareness during critical moments that directly affect the planet and our communities. For more information on our government engagement in this area, please see the following on Tiffany.com/Sustainability: the Government engagement segment of sustainability approach, environmental advocacy and land preservation segment of Planet, protecting Bristol Bay and protecting U.S. national monuments and minimizing environmental impact of mining segments of Taking Care of the planet on Tiffany.com/Sustainability.

**GRI 306: WASTE**

**306 Management approach**
Tiffany & Co. regulated waste management programs are designed to ensure that all operational waste streams are assessed and characterized to assure compliance with applicable waste regulations and acceptable handling practices.

For non-regulated waste, please see the Circular Economy Opportunities segment of Environmental Impact on Tiffany.com/Sustainability.

We prioritize responsible waste management as part of our Social and Environmental Accountability Program, including waste-related standards in the Supplier Code of Conduct. For more information, please see the “Tiffany & Co. Supplier Code of Conduct” and “Tiffany & Co. Supplier Code of Conduct Guidance.”

**306-2 Management of significant waste-related impacts**
Tiffany & Co. seeks to take advantage of circular economy opportunities as a mechanism to manage waste-related impacts. For information on management of significant waste related impacts more broadly please see the following on Tiffany.com/Sustainability:
- Throughout Planet
- Throughout Environmental Impact
- Page 6 of “Tiffany & Co. 2025 Sustainability Goals”
- Page 19 of “FY2020 Tiffany & Co. Sustainability Goals Progress”

Tiffany & Co. does not report on waste generation at this time but, as part of its 2025 Sustainability Goals, is striving to implement circular economy principles to reduce material use and key waste streams by 2025.
Tiffany & Co. has employment policies in place regarding employee standards and compliance. Tiffany requires that our suppliers share our commitment to human rights, fair and safe labor practices, environmental protection and ethical business conduct. These requirements are communicated through the Supplier Code of Conduct. We expect our suppliers to fully comply with all applicable laws, rules and regulations. We also expect suppliers to go beyond legal compliance and strive to meet internationally recognized standards for the advancement of human rights, business ethics, and social and environmental responsibility. Suppliers are encouraged to align with International Labor Organization (ILO) conventions and the United Nations Global Compact, Guiding Principles on Business and Human Rights and Sustainable Development Goals, and work conscientiously to operate within these frameworks.

Through our Social & Environmental Accountability Program (SEA Program), we perform regular audits on a targeted subset of suppliers. For information on the Company’s expectations for suppliers in these areas, please see the “Tiffany & Co. Supplier Code of Conduct” and “Tiffany & Co. Supplier Code of Conduct Guidance.”

### GRI 403: OCCUPATIONAL HEALTH AND SAFETY

#### 403 Management approach

Tiffany & Co. has a corporate Occupational Safety & Environmental (OS&E) management system established global performance expectations for OS&E matters related to all Company operations. This system outlines responsibilities and sets the expectation for each business unit to identify and control, to the extent necessary, OS&E aspects and issues specific to its operations. Programs and controls are developed and executed locally to assure regulatory compliance and manage relevant OS&E aspects.

#### 406-2 Negative environmental impacts in the supply chain and actions taken

For information on the nature of findings in our most recently completed Social and Environmental Accountability audit cycle (2018–2019), see pages 12–15 and 24 of “FY2020 Sustainability Performance and Metrics Document” on Tiffany.com/Sustainability. Please also see the Our Social and Environmental Accountability Program and Turning Results into Action: Working with Our Suppliers segments of A Legacy of Craftsmanship on Tiffany.com/Sustainability for how we review, assess and address environmental and other areas through our Social and Environmental Accountability Program (SEA Program).
The Tiffany & Co. OS&E management system requires each Company operation to identify and evaluate potential employee safety impacts; conduct rigorous impact assessments; and control hazards by elimination, reduction, substitution, containment or other appropriate control mechanisms. Each Company operation works to verify the effectiveness of control mechanisms through a combination of physical testing, auditing and inspections; and taking steps to ensure employees understand hazards and potential impacts of their work activities. Safety-related incidents, including work-related injuries, if any, are investigated with corrective action taken in an effort to prevent re-occurrence.

Our occupational safety training programs are implemented at the operational level and designed to ensure that all Company personnel understand: how to perform their work safely; the potential safety impact of their work; how to control hazards and any applicable regulatory requirements associated with their work. Training is delivered in a variety of methods and includes a combination of generic and location/job specific content.

Tiffany & Co. communicates its values, including around Occupational Health and Safety, to third parties via its Supplier Code of Conduct and Supplier Code of Conduct Guidance. Through our Social & Environmental Accountability Program (SEA Program), we perform regular audits on a targeted subset of suppliers. Tiffany & Co. requires all findings of our SEA Program to be addressed. In the rare instances where a zero tolerance issue is identified and not remediated, the supplier may be subject to prompt termination. For information on how we review and help suppliers improve in areas (including child labor) through auditing, re-auditing, training and more, including our zero-tolerance in this category, please see the Turning Results into Action: Working with Our Suppliers segment of A Legacy of Craftsmanship on Tiffany.com/Sustainability. |

| 414       | Management approach | The Tiffany & Co. Supplier Code of Conduct has helped Tiffany uphold our basic expectations across our supplier base. Our Social & Environmental Accountability Program enables us to uphold our standards in social and environmental responsibility by working with a key subset of our suppliers to help them improve their human rights, labor and environmental performance. This key subset includes suppliers that provide us with our finished goods, components, leather goods, polished diamonds, colored gemstones and packaging materials, as well as service providers that repair and perform new sale alterations on Tiffany & Co. merchandise. For more information on Tiffany’s management approach to supplier environmental assessment, please see the following on Tiffany.com/Sustainability:

27 FY2020 Alignment to Sustainability Reporting Frameworks
GRI 416: CUSTOMER HEALTH AND SAFETY

416 Management approach
Tiffany & Co. places a high priority on product safety, with dedicated resources focused on evaluating and reviewing our merchandise to ensure it meets the Company’s applicable quality and product safety standards.

416-1 Assessment of the health and safety impacts of product and service categories
Tiffany’s Quality Management department supports Tiffany & Co. in providing our customers with products of high quality and enduring value, all in compliance with applicable legal requirements. Their role includes:
• establishing product manufacturing standards, including safety policy
• performing technical testing and assaying
• performing technical research
• sharing technical information and manufacturing solutions with vendors and suppliers, as appropriate
• reviewing new product samples for compliance to all standards
• examining merchandise as necessary for conformance to aesthetic, functional and legal standards
• qualifying new vendors and tracking vendor performance
In 2018, Tiffany opened the Jewelry Design and Innovation Workshop (JDIW) to further evaluate the impacts of new manufacturing processes and materials. The JDIW plays a key role in conducting quality assurance of new jewelry products.

416-2 Incidents of non-compliance concerning the health and safety impacts of products and services
Tiffany & Co. did not have any significant instances of non-compliance concerning the health and safety impacts of products and services during this reporting period.

GRI 417: MARKETING AND LABELING

417 Management approach
Tiffany & Co. places a high priority on product safety, with dedicated departments focused on evaluating and reviewing our merchandise to ensure it meets the Company’s quality and product safety standards.
As a leader in diamond traceability, Tiffany & Co. is unique among global luxury jewelers in owning and operating its own diamond cutting and polishing workshops around the world. We require detailed provenance information (region or countries of origin) on all newly sourced, serialized diamonds (typically, 18 carats and larger) and will not source any diamonds without provenance information (even if responsible sourcing is assured). In 2020, we became the first global luxury jeweler to disclose the countries where our newly sourced, serialized diamonds are crafted. The journey outlines several steps, including cutting and polishing, grading and setting—a pioneering achievement in diamond traceability and transparency.
Tiffany’s Legal Department advises on labeling requirements as part of the product development process, and recommends appropriate disclosures and instructions to fulfill industry safety standards and regulatory obligations.

GRI 418: CUSTOMER PRIVACY

Management approach
At Tiffany & Co., the Global Compliance and Privacy Team within Tiffany’s Legal Department evaluates the Company’s key compliance and reputational risks, including those related to customer privacy.
For information on our risk assessment governance, please see the Importance of Governance segment of Sustainability Approach on Tiffany.com/Sustainability.

GRI 419: SOCIOECONOMIC COMPLIANCE

419 Management approach
At Tiffany & Co., the Global Compliance and Privacy Team within Tiffany’s Legal Department evaluates the Company’s key compliance and reputational risks. Key socioeconomic principles are also communicated to our workforce through the Tiffany & Co. Business Conduct Policy.
For information on our risk assessment governance, please see the Importance of Governance segment of Sustainability Approach on Tiffany.com/Sustainability.

419-1 Non-compliance with laws and regulations in the social and economic area
Tiffany & Co. was not subject to any significant fines or significant non-monetary sanctions for non-compliance with laws and regulations in the social and economic area in 2020.
