A Brilliant Legacy

In 1886, Charles Lewis Tiffany unveiled the Tiffany® Setting, an expertly engineered design that introduced the world to the engagement ring as we know it today.

Each diamond, like a human fingerprint, has certain distinguishing characteristics such as color, clarity and carat weight. But what brings life and soul into a diamond is the cut. Every Tiffany diamond, no matter how large or small, is meticulously cut.

Tiffany is proud of its 1,500 expert cutters and polishers. Their passionate work unleashes an intense beauty in every stone they touch.

TIFFANY JEWEL BOX

The 2019 Blue Book Collection showcases the earth's most unusual and exquisite gemstones, blurring the line between reality and imagination. When these exceptional designs are unveiled in October 2019, those compelled by curiosity will discover that the allure of these unexpected objects radiates far beyond a glass case.

An homage to the traditional butterfly form, this striking platinum brooch captures the graceful movement of delicate wings with diamonds totaling over 6 carats and more than 200 sapphires.

“We want to compel people to discover things in a new way—slowly uncover the layers behind each design,” says Reed Krakoff, chief artistic officer, Tiffany & Co., “*Tiffany Jewel Box* magnifies nature in an extraordinary way.”
